# PRICES GO DOWN TO LOW LEVEL AGAIN

Speculative Liquidation Carried to Extreme as Result of Anticipated Reaction.

DISAPPOINTMENT EVIDENT AFTER PROLONGED DVANCE

Bear Campaign for Depression Triumphant Without Reasonable New Developments.

NEW YORK, May 27.—Further speculative liquidation was very obvious in today's stock market, during the progress of which prices were carried to a lower level than has been touched since the movement began in the latter part of last week. The downward course of prices ands as little in the actual news to account for it as did the previous advance, a fact which strengthems the view that the operations are centered in few hands and find their motive in a longer prosect of manipulation than is outlined in the day's developments. While the selling swing now in progress need not represent fears of coming unfavorable eronts it must be accepted as a reflection of a certain disappointment over the effect of such favorable developments as lave occurred, and which have falled to melte a sufficient demand for stocks to absorb realizing sales, except at the price concessions which are being made. When the stationary movement was once tarly established there came into notice, also, revived activity on the part of the mouraged bear party iff the circulation of reports calculated to prompt selling of stocks and so help on the effort to depress prices.

greports calculated to prompt selling of specks and so help on the effort to depress pices. Some such reports today were of conservations in the case of some of the railreads of ower credit under suspicion earlier in the year of financial embarrassment, at since credited with being safely extrated from their troubles. On account of these rescues the rebound in stocks from extreme depression was particularly usent, leaving them the more vulnerable the revival of rumors impugning their sheavy. The violent breaks in this sats in today's market aided materially in the bear campaign for lower prices. The character of some of the crop dampreports also awakened suspicion of stah origin by reason of the mysterial slusion to the hidden resources of mation on which they were based. It violent fluctuations in grain prices storingly gave food to these rumors, alticular largely due to technical speculate conditions in those markets. This may better perceived today when dealled news of weather conditions was hown. Another field of hearish industry is in the alleged intentions of the Federal Government in the matter of further prosecutions of corporations. The easy tone developed in the bond market was of more influence on financial sentiment even than the break in the santiment even than the break i

The supply is limited. More raspherries appeared on the market, but the price remained un-

changed. California gooseberries are now plenti-California gooseberries are now plentiful at 15c a quart, and a very limited supply of the Utah variety is obtainable at 25c a quart. The quotation on the latter will fall in a few days, declare the dealers. The supply of strawberries is now greater than the demand, and the dealers are compelled to offer the fruit at reduced prices in order to dispose of it before it spoils. Wednesday the quart boxes were offered at 10c, 15c, 17tc and 20c each, with the Utah variety at 25c and 30c.

## WHEAT OPENS WEAK; MAY OPTION STRONGER

of Damage Cause of Advance in Grains at Close.

CHICAGO, May 27 .- The wheat market opened weak because of the failure of European markets to respond to yesterday's advance here. Shorts in the May delivery took advantage of the small decline and began to cover freely, which caused the price of that option to advance caused the price of that option to advance from \$1.04 to \$1.06 within the first fifteen minutos. Other deliveries, however, were affected but slightly during the first half of the day by the strength of May. The later market became strong because of the buige in May corn. At the close the May option was strong and other deliveries about steady. July opened to to it lower, at 92th to 92th, sold at 92th, and then declined to 91th. The close was at 92c. May sold between \$1.04 and \$1.06th and \$1.06th and then declined to 91th. The close was at 92c. May sold between \$1.04 and \$1.06th and closed at the high point.

Corn was weak early in the day on selling by longs, but later rallied sharply on active covering by shorts. The market closed strong, July opened to 10th, and then advanced to 69@69th. The close was at 68t@68th. May opened to higher, at 79c, sold up to \$1c and closed at \$0c.
